Food Innovation Center

TIMUS DAING FLAKES

- Produce using dried "*Labahita*" fish abundant in Batangas. A technology that translate traditional dried fish into new value added product with high economic value. It is a ready to eat side dish and uses oil as preservative.

POWDERED BAGOONG

- A gourmet quality condiment that gives different experience to consumers. It also offers consumer's convenience, food safety, and transportability since it is powdered with the same natural taste and flavor.

MUSHROOM KROPEK

- Developed Ready-to-Fry or Ready-to-Eat mushroom product that serves as snack. A technology that translate a common ingredient to an independent product.

SPRAY DRIED MULBERRY JUICE

- Fresh and natural extracted Mulberry Juice turned to powder. It offers longer shelf-life and a very dissolvable powder that leaves no settlings or residue when mixed with water. A more convenient way to taste freshness within your preferred time.

PASSION FRUIT RIND CHIPS

- A nutritious tropical fruit turned into chips. A snack that undergoes low-temperature of dehydration to retain nutrients giving its addictively delicious taste and crunch.

SPRAY DRIED KAPENG BARAKO (*COFFEA LIBERICA*) COFFEE

- The 100% pure soluble coffee carefully selected from the homegrown *liberica* in Batangas province. It has a very unique strong flavor profile, and described as smoky, nutty, and has lingering taste of rich dark chocolate.
