BRYCE Technology Transfer Collaboration with SP

The SP and BatStateU team for technology transfer project BRYCE shares a photo op with the beneficiaries of Gawad Kalinga Arseo Village at Brgy. San Pedro, Batangas City

The Singapore Polytechnic (SP) and Batangas State University collaborated on April 8-11 to develop the Biodiesel Reactor Yielding Commercially Available Energy (BRYCE) for a technology transfer collaboration project.

The BRYCE was initially designed by the SP Chemical Engineering team who then teamed up with the BatStateU Chemical Engineering Team and Instrumentation and Control Engineering team to develop and recreate the biodiesel reactor to make it suitable in the Philippine setting.

on April 12, the CTI Team to Gawad Kalinga Arseo Village at Brgy. San Pedro,

Batangas City, the target beneficiaries, to demonstrate the Biodiesel Reactor Yielding Commercially Available Energy (BRYCE).

The CTI Team gave an introduction about the project and its team, discussed BRYCE's purpose and conducted a demonstration of its operation.

The team also conducted an open forum on how to optimize the technology based on the user's point of view. The BRYCE will then undergo a series of revisions and development based on obtained insights before it can finally be given to the beneficiaries.

CTI start-up joins ASEAN-JAIF Business Matching Program

The ASEAN-JAIF Business Matching Program was held on June 27-28 in Singapore where CTI's start-up "ROBIN" (Recycle on Demand Bin) was among the start-ups from different countries featured to pitch.

ROBIN's Chief Technical Officer Mr. Emmanuel Bobis took the stage to discuss the start-up.

Afterward in the event, Mr. Bobis met several investors who were interested in the start-up.

The Business Matching Program is part of the 4th output of the ASEAN Business Incubator Network (ABINet), a network of Business Incubators in 10 ASEAN countries.

CTI hosts 1st Spear Pitch Bootcamp & Competition

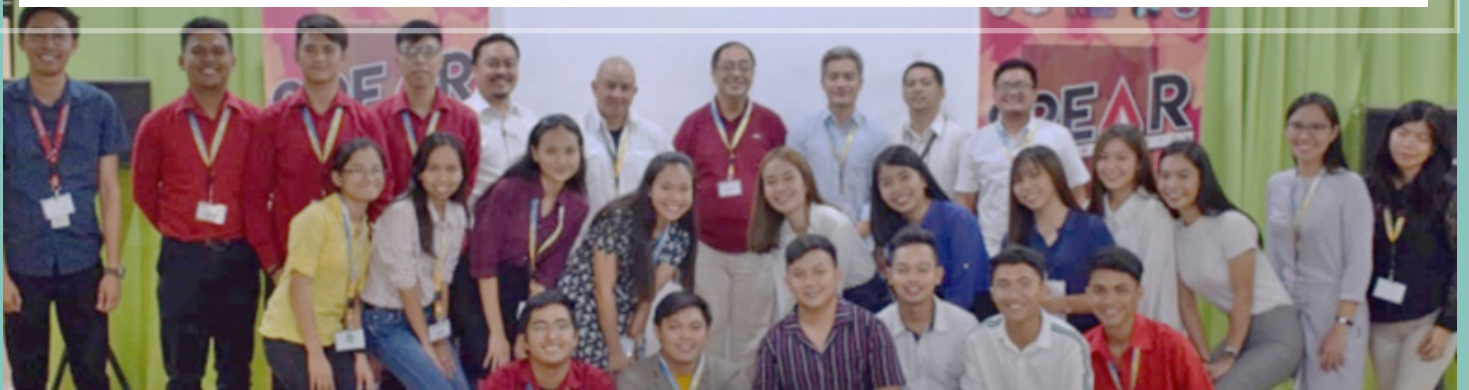

On May 8-10, CTI led the First Spear Pitch Bootcamp & Competition at Kahariam Farm, Brgy. Adya, Lipa City.

The competition was open to students, faculty members, innovators and other professionals in the region of CALABARZON, Bicol and MIMAROPA.

From 40 entries of start-ups from different SUCs and other industries, 11 team qualifiers were able to advance to the bootcamp and competition phase. Each team qualifier received a Php 10,000.00 cash prize. Also part of the bootcamp was a curated session and mentoring by experienced tech professionals, speakers and mentors.

At the end of the event, a total of 5 teams were hailed as winners where each received a research grant amounting to Php 20,000.00.
