

ADDRESSING FOOD SECURITY AND HUNGER

WORLD FOOD DAY 2021

“Our actions are our future- Better Production, Better Nutrition, A Better Environment and a Better Life”

BACKGROUND

The Association of Food Engineering Students (AFES) held its annual World Food Day last October 16-31, 2021 via Zoom and Facebook Live. This month long event features different activities that emphasized this year's theme on importance of food safety in ensuring food security, zero hunger as well as for a transformative call for a better and sustainable agri-food system.

HIGHLIGHTS: (OF WORLD FOOD DAY 2021)

GOAL 2:

- ✔ *Zero Hunger of the 17 Sustainable Goals*
End Hunger
Achieve Food Security
Improved and promoted sustainable agriculture

✔ *Peter Rabbit as a Food Hero*
He is this year's ambassador that gently reminds everyone to support FAO's advocacy on achieving sustainable world without hunger, malnutrition and poverty.

✔ *Take Action*
are all small plans like supporting small food producers to reduce water pollution, dressing sustainably, reducing food waste, choosing sustainable and healthy diets and more.

✔ *Food Safety Act 2013*
this act is passed to strengthen the food safety regulatory system in the country to protect consumer health and facilitate market access of local food and food products and, for other purposes.

✔ *69.40 %*
All 183 participants were able to fill up the form sent to their email. 69.40% of the participants rated the activity overall as Outstanding.

HIGHLIGHTS:

FOOD WASTE AWARENESS MONTH

- "Overcoming The Risk of Food Waste Using Dragon Fruit Peels as Natural Food Coloring"
- "Taro (Colocasia Esculenta) Based Bioplastic For Secondary-Delivery Packaging".
- "Biogas production from co digestion of cow manure and organic vegetable waste".

CONAHSSISTANCE PROGRAM GOAL

CONAHS Department shows beyond kindness, manifesting Bayanihan and unity, helping those in need to achieve a specific goal: to address food security.

“CONAHSSISTANCE PROGRAM FOR FOREIGN STUDENTS ADDRESSING FOOD SECURITY”

Launching the CONAHSSistance Program for students addressing food security gave the students and faculty members the greatest hope to face obstacles and strive for everyday living.

FOOD WASTE AWARENESS MONTH

“Stop Food Loss and Waste. For the People. For the Planet”

➤ Responsible Consumption and Production

Aims to ensure responsible and sustainable consumption and production patterns are implemented in order to reduce food loss and waste. It also promotes generation of minimal to zero-waste through the utilization of food waste as raw materials for repurposed, sustainable products and reduce carbon footprint emissions brought about by wastes generated.

World hunger is increasing, but almost one-third of all food produced globally is lost or wasted. Each of us has a role to play in decreasing food loss and waste, not just for the sake of the food itself but also for the resources used to produce it.

As part of FAO's vision to end hunger, achieve food security, and fight this battle to finally ensure global awareness for those who have long been suffering hunger, unhealthy diet, and poor nutrition.

Let's all pledge to end hunger!
