

**Center for Sustainable Development**

**BatStateU’s Environmental Sustainability Network**

Batangas State University-The National Engineering University stands as a steadfast proponent of environmental sustainability, recognizing its pivotal role in addressing pressing global environmental challenges. The University is committed in equipping students, faculty, and staff with the knowledge, skills, and mindset needed to assume the mantle of environmental stewardship and act as catalysts for transformative change. It is in this premise that the University continue to establish robust networks within academia, industry, and the broader community. Through this, we aim to leverage collective expertise, resources, and innovative solutions to amplify the impact of our sustainability initiatives. Listed below are several environmental sustainability networks to which we are affiliated.

**Batangas Coastal Resources Management Foundation, Inc.**

A non-profit organization that connects the academe and the industries to protect and address the issues of coastal resources in Batangas Province.

**Philippine Association of Marine Science**

A national organization, PAMS connects the academe, government, industries, development agencies, and non-government and private groups involved in marine science research and development in the Philippines.

**Microbiology Consortium of the Philippines**

A component of the Philippine Society of Microbiology that provides training opportunities in microbiology education.

**Southern Tagalog Agriculture, Aquatic, and Resources Research Development and Extension Consortium (STAARRDEC)**

A non-stock, nonprofit organization that collaborates efforts to boost the Southern Tagalog agriculture, aquatic resources, research development and extension activities.

**Sustainable Development Solutions Network Philippines**

SDSN Philippines mobilizes its members and leverages their strengths to help realize the SDGs through education, awareness and engagement, solutions.
