

14.3.2. Batangas State University – The National Engineering University has a policy to ensure that food on campus that comes from aquatic ecosystems is sustainably harvested.

Our University through our Center for Sustainable Development has a policy that ensures that food on campus that comes from aquatic ecosystems is sustainably harvested. This is specifically mentioned in our Policy Guidelines for Sustainable Development under Chapter 3-Inclusive Academic Environment and Workplace, subsection 3.4 Food Security states that “Programs to ensure food security such as but not limited to campus vegetable gardens, shall be implemented to ensure sustainable and healthy food sources in food pantries, feeding programs, and livelihood programs for students with food insecurity.”

In addition, a workshop was organized in BatStateU ARASOF-Nasugbu campus that trained participants on how to make tilanggit (dried tilapia) and smoked tilapia.
