

Your CALABARZON Food Solutions Hub in Batangas

Shared Service Facility

is a flagship project of the Department of Trade and Industry aimed to improving MSMEs productivity and efficiency through better access to technology as well as providing service to students and faculty researchers.

Food Innovation Center: Your CALABARZON Food Solutions Hub in Batangas is an externally funded project that comprises the acquisition of equipment which includes an oven, vacuum fryer, walk-in chiller and freezer needed to provide services in terms of preparation and processing of food products.

The Batangas State University-Food Innovation Center was officially launched and became one of the Shared Service Facility for MSMEs herein Batangas last December 21, 2022. The event was officiated by both FIC and DTI personnel. The attendance of Ms. Leila M. Cabreros the Provincial Director of DTI Batangas and Assoc. Prof. Albertson D. Amante the Vice President for Research, Development and Extension Services was one of the highlight of the event.

The event was composed of a short opening remarks and messages from both Assoc. Prof. Amante and Ms. Cabreros, the MOA and UA signing, and the most awaited ribbon cutting to finally mark the FIC as one of the Shared Service Facility that will provide MSMEs and the community with the services that will help in innovating and developing their food products.
