

## **SDG 2: ZERO HUNGER**

### **HIGHLIGHTS:**

- Through the OUP Memorandum 304-c s. 2021, the University ensures that sustainable, healthy and affordable food choices are available in the university canteens and offered as well by other external concessionaires.
- The University provides intervention to prevent hunger among its stakeholders through the different initiatives of University offices, colleges, and organizations.
- The University's Food Innovation Center (FIC) spearheaded program supporting Local Farmers and food producers.

**2.06 mt** Total Food Waste

**64,310** Total Population

**0.0313 kg**

Food waste per capita per annum

The BatStateU's Policy Guidelines for Sustainable Development (p.40-41) ensures that the university have specified trash bin in the university canteens and offices to collect food waste. Waste tracking portal is also available for accurate recording of food waste. In 2023, the University generates 2.06 mt of food waste across its campuses. The increasing quantity of food waste can be linked to the shifting of online/alternative classes to face-to-face classes in the university. The total collected food waste of the university contributes to only 0.00006% of the total country's food waste in 2023.
