

BATANGAS STATE UNIVERSITY

The National Engineering University

SDG 9: INDUSTRY, INNOVATION AND INFRASTRUCTURE

HIGHLIGHTS:

- Recycle On-demand BIN or ROBIN (<http://robins.ph/>) is a spinoff that reduces waste generation by collecting and recycling plastic bottles and tin cans.
-

ROBIN or Recycle On - demand BIN is a reverse vendo system that accepts recyclables such as PET bottles and tin cans in exchange with rewards. Since discipline is lacking among people, we offer motivation through rewards for them to be environmentally responsible.
