BATSTATEU'S INCLUSIVE FACILITIES

FY 2023

Republic Act No. 7277, the Magna Carta for Disabled Persons, mandates the rehabilitation, self-development, and integration of disabled persons into society. Recognizing their integral role in the society, the government is committed to improving their overall well-being.

Batangas State University aligns with this commitment by promoting inclusivity in its admission and recruitment policies for persons with disabilities (PWDs). The university provides accessible facilities to support PWDs' integration into mainstream society.

BatStateU's Policies and Procedures for Services for Students with Special Needs and Disabilities formalize this commitment. Programs and activities are designed to offer equal opportunities to PWDs and learners with special needs. The University President's memorandum further reinforces the recruitment and reasonable accommodation of PWDs.

To enhance accessibility, BatStateU has implemented express lanes in various offices. Facilities for PWDs, including wheelchairs, elevators, dedicated washrooms, ramp passageways, lifts, reserved seating, and parking spaces, are available across the campus. The university remains dedicated to ongoing improvements to create a more inclusive environment for all students and employees with special needs and disabilities.

BATSTATEU'S INCLUSIVE FACILITIES

FY 2023

The following shows the different facilities and services offered by the university to provide access to persons with disabilities (PWDs) in the University:

A. Restrooms for Persons with Disabilities

Each building is constructed with accessible PWD restrooms. These restrooms are equipped with inclusive features such handle/grab bars, adequate space for a wheelchair to maneuver, good lighting to ensure visibility and lever-style faucet handles that are easy to operate.

C. Priority Lanes

To enhance accessibility and convenience, the university has implemented priority lanes in various offices for individuals with specific needs. These dedicated lanes are available to Persons with Disabilities, Pregnant Women, and the Elderly, ensuring they can conduct their business efficiently and without undue stress.

D. Wheelchairs

Wheelchairs are readily available at the entrances of all buildings on campus to assist individuals with mobility impairments. This provision ensures that everyone, regardless of their physical abilities, can access the facilities and services offered by the university.

E. Ramp passageway in the entrance of buildings and gateway of campuses

Ramp passageways are strategically located at building entrances and campus gateways to facilitate easy and accessible movement for individuals with mobility limitations, including those in wheelchairs. This design ensures that everyone can navigate the campus independently and comfortably.
