EVERY DROP COUNTS: EMPOWERING COMMUNITIES THROUGH SDG 6

Sanitary Engineering Students of BSU (Group 3) Cooperation with the Local Officials - FY 2023

The implementation of Sustainable Development 6 (SDG 6) in Purok 9, Barangay Coliat, Ibaan, Batangas, was focused on ensuring access to clean water and sanitation, fostering a healthier and more resilient community. This initiative addressed various environmental and social issues such as contamination of water sources in their inland rivers; Duhatan and Talunan River, insufficient waste disposal practices; livestock and domestic waste, and the lack of access to clean water for the minority. The Information, Education, Communication (IEC) Campaign conducted by the group in Barangay Coliat, Purok 9, with the cooperation and vocal support from the local officials in the community, assessed the implications and impact of these issues on the communities health and socio economic factors. The campaign's systematic approach has led to heightened awareness and tangible actions towards sustainability. To ensure continued progress in clean water and sanitation initiatives in Barangay Coliat, Purok 9, ongoing community efforts are essential to maintain community engagement and increase awareness of environmental conditions, thereby fostering a positive impact and resilient community.
