The Batangas State University Library offers a diverse range of online resources, including a variety of open access materials such as eBooks, eJournals, and textbooks. These resources, along with subject bibliographies, reference sources, and digital content creation tools, are freely accessible to all users. Additionally, the library provides access to subscription-based databases like Emerald Insight, IEEE Xplore, and ScienceDirect, as well as trial databases and the Elibrary USA. This comprehensive collection of resources, both open access and subscription-based, ensures that the library caters to the diverse academic and research needs of its users.

In 2023, a total of 342,942 visits were recorded in the BatStateU Online Library.
